

CALL FOR PAPERS

6th ASME International Conference on Multibody Systems,
Nonlinear Dynamics, and Control
September 4-7, 2007, Las Vegas, NV, USA

Vehicle and Tire Dynamics

Papers are solicited in all areas related to vehicle and tire dynamics. Topics of interest include, but are not limited to, vehicle modeling and simulation, formulation and modeling of pneumatic tires, vehicle controls, vehicle stability, rollover dynamics, suspension and steering designs, ride comfort, hardware-in-the-loop simulation, application of driving simulators, and experimental validation. Both analytical and experimental investigations are welcome.

Papers must be submitted electronically in a PDF format as described in the conference website (www.asmeconferences.org/idetc2007/) before **February 19, 2007**. All papers will be reviewed and, if accepted, will be published in the conference proceedings on CD-ROM. For further information, contact the organizers of the symposium:
