

CALL FOR PAPERS

Seventh ASME International Conference on Multibody Systems, Nonlinear Dynamics and Control

ASME 2009 International Design Engineering Technical Conferences
San Diego, California
August 30 - September 2, 2009

Symposium on Differential-Geometric Methods in Multibody Dynamics, Non-Linear Dynamics and Control

Papers are solicited in all areas of multibody dynamics, non-linear dynamics and control covering theoretical, computational and symbolic aspects of differential-geometric methods. Contributions to analytical dynamics, motion planning and control, as well as to geometric integration methods are also invited. Application papers dealing with robotic manipulators, aerospace applications, non-holonomic multibody systems, electromechanical systems and biomechanical systems are especially welcome.

Full papers must be submitted electronically in a PDF format as described in the IDETC 2009 conference web site by **February 6, 2009**. All papers will be reviewed and, if accepted, will be published in the conference proceedings on CD-ROM. For further information about this symposium, go to <http://www.rpi.edu/~anderk5/MSNDC2009> or contact one of the organizers listed below:

Prof. Zdravko Terze
Faculty of Mech. Engineering
and Naval Architecture
University of Zagreb
Ivana Lučića 5
10 000 Zagreb, Croatia
tel: +385 (0)1 6168476
fax: +385 (0)1 6156940
