

CALL FOR PAPERS

Symposium on **Dynamics and Control of Time-Delay Systems**

*7th ASME International Conference on
Multibody Systems, Nonlinear Dynamics and Control*

to be held in conjunction with the
ASME 2009 International Design Engineering Technical Conferences
at the
San Diego Convention Center, San Diego, California
August 30 – September 2, 2009

Papers are solicited in all areas related to theoretical, computational, symbolic and experimental aspects of dynamical systems functioning under delay constraints. Modeling, computationally efficient algorithms, stability and bifurcation analysis, optimization and novel centralized/decentralized controller synthesis are topics of interest. Applications comprise, but are not limited to, interconnected systems with multiple delays, spatially distributed large-scale networks, manufacturing and machining, and mechatronics. Contributions of inter-disciplinary nature and/or with experimental investigations are especially welcomed.

Papers must be submitted electronically in a pdf format as described in the IDETC 2009 web site at <http://www.asmeconferences.org/IDETC09/> before **February 6, 2009**. All manuscripts will be reviewed and, if accepted, the associated technical paper will be published in the conference proceedings on CD-ROM. For more information about the conference, please contact:

Prof. Tamás Kalmár-Nagy
Dept. of Aerospace Engineering
Texas A & M University
University
College Station, TX 77845, U.S.A
Email: kalmarnagy@aeromail.tamu.edu

Prof. Brian Mann
Department of Mechanical Engineering and
Materials Science
238 Hudson Hall
Duke University Durham, NC 27708
Tel: (919)660-5214
