1	Loved this course. Very, very well taught.
2	Professor Holmes is an amazing professor.
3	Good class, well taught. Would be nice if it were a bit more theory heavy.
4	This course has been better than any other calculus-based class for me. The instruction is clear and understandable, and the grading is very fair. dThank you, Professor Holmes.
5	Professor Holmes is not only one of the brightest people I've ever encountered, but is also the best math instructor I've ever had. His class was one of the first times I've felt confident in my math abilities due to the quality of teaching I received.
6	Outstanding professor
7	Professor Holmes is amazing at teaching and he really cares about his students.
8	Great prof, great TA, great and fair class.
9	professor Holmes is a professor that I would take another class with if I could. He explains exactly what his students needs to know, as where to go for more help. Professor Holmes is very approachable and knows exactly what he is teaching. While I do not agree with his grading policy (in terms of points each object is worth) it is fair.
10	Very good course, amazing professor. I would recommend Professor Holmes to anyone.
11	Great professor
12	Excellent class
